Re: U.S. Patent Appln. No. 07/767,157  
Your File: 31542  
Our File: FTR-0110

Dear Nick:

Enclosed is a copy of the Examiner's Advisory action issued on March 9, 1993 in connection with this case. Once again, the Examiner has erroneously found our response to be unpersuasive.

At this point, because the maximum statutory time for response expires in less than three months and because we are under final rejection, we recommend filing a File Wrapper Continuation with a preliminary amendment of the claims (without adding new matter) in order to more particularly point out the patentability of the invention. If you have any suggestions as to how to amend the application in this regard, please let me know.

While the continuation application may be filed as late as May 25, 1993, we will incur additional extension fees on March 25, April 25 and May 25, as each of those dates passes. Accordingly, please let me have your instructions as soon as possible.

Sincerely,

*Morey*  
Morey B. Wildes
